**REID HELICOPTERS  
NELSON NEW ZEALAND**

## ABOUT US

The Reid Family and helicopters have had a long-standing relationship dating back to the early 1950's. John Reid "Mr. Helicopter" started Helicopters New Zealand and was a pioneer for the New Zealand helicopter industry. Second generation pilot Bill Reid started Nelson Helicopters in 1983, initially working on live deer recovery and then moving on to develop tourism in the Nelson and Marlborough regions. The main area of development at the time was the flying of overseas brown trout fishermen into the Kahurangi National Park. Now third generation pilot Toby Reid carries on the legacy that his forefathers created and has renamed the company 'Reid Helicopters Nelson.' Toby, together with his wife Rachael, have established their operation to cater for a

wide range of commercial services and strive to develop new and innovative products to show to the world. "We are so appreciative of the wonderful area we live and fly in. We aim to keep it this way for the next generation to enjoy just as we do." In their efforts to minimize their environmental footprint and give back to the local community, they have been awarded Qualmark Enviro Silver Status. Reid Helicopters Nelson's main base is situated in Wakefield, 30km south of Nelson city, nestled between Abel Tasman, Kahurangi and the Nelson Lakes National Parks. Reid Helicopters Nelson New Zealand has the highest certification standard required by the New Zealand Civil Aviation Authority for air transport operations and are approved by Qualmark.

### SALISBURY FALLS - OPTIONAL ADD ON

Salisbury Falls in the Aorere River of Golden Bay is at the very start of Kahurangi National Park’s Heaphy Track. It was here where Tauriel and Legolas met before heading into Lake-town - as seen in The Hobbit: The Desolation of Smaug. Salisbury Falls can be added to our Mt Olympus Single Site Tour or Mt Owen/Mt Olympus Combo Tour for an extra \$450 (R44) or \$600 (Eurocopter) NZD incl GST. Please allow an extra 45 minutes tour time. This option is not available on the Mt Owen Single Site Tour.

## MT OLYMPUS - SOUTH OF RIVENDELL

**FLIGHT TIME: 60 minutes** | **LANDINGS: 1** | **TOUR DURATION: 2 Hours +**

Fly northwest over the Kahurangi National Park and into Golden Bay. Land on Mt Olympus to view the strange pinnacle rock formations that were used to portray the rugged country “South of Rivendell.” It was here, as the nine rested and cooked a meal, that the crebain crows of Saruman searching for news of the One Ring spied the travellers below. Hurriedly extinguishing their fire they hid behind the pinnacles in an attempt to escape discovery. Mt Olympus sprouts rocky outcrops which over time have been eroded by weather to form incredible columnar shapes. It is an extremely remote location and can only be reached by helicopter.

It was here, distraught at the loss of Gandalf, the remaining members of the Fellowship escape the mines of Moria and throw themselves to the ground in their grief. Mt Owen showcases some of the oldest rock in New Zealand and has priceless geological properties. As you ascend a landscape of glaciated marble karst is exposed and you appreciate the challenges for film crew working within the harsh alpine environment.

Helicopter weight and balance changes with every flight because of individual passenger weights, luggage and the amount of fuel required. CAA regulations require all passengers to declare their weight on check-in and if required, passengers and carry on luggage will be weighed before the flight as we cannot exceed the helicopters permissible weight.

Please call our office for more information.

## TROUT FISHING

The Nelson Marlborough region offers some of the best brown trout fishing in the world. For over 20 years the Reid family have been transporting locals and visitors from all over the world to some of our best known fishing spots. The Karamea, Roaring Lion, Crow and Mohikini Rivers are just some of the world renowned rivers in the Kahurangi National Park which offer fly fisherman a chance to catch a trophy fish (catches of 7lb brown trout and above are common). Guides are available for day trips or if you are already familiar with the area you have the option of day trips from your accommodation or overnight hut stays.
